## FULL PROFESSOR POSITION IN GEOMORPHOLOGY

The Faculty of Geosciences and Environment at the University of Lausanne invites applications for a full professor position in geomorphology. The search is for a candidate in the general area of earth surface processes. A specific focus on fluvial geomorphology would be an asset. The successful candidate is expected to be complementary to the existing center of competence in mountain geomorphology at the Institute of Geography.

Responsibilities include teaching on the bachelor, master and PhD levels, as well as building up and leading a vigorous, internationally recognized research program, which is capable of attracting external funding.

Appointment is on the full professor level, but it is possible, in an exceptional case, on a tenure-track position, leading to a full professor status within 5-6 years. The University of Lausanne is an equal opportunity employer. Applications from women are particularly encouraged.

Application deadline: **March 26, 2010**

Starting date: February 1, 2011 (or alternative agreed upon date)

Applications are to be submitted both by e-mail and by paper copy to the Dean of the Faculty of Geosciences and Environment. The application material should include a cover letter, a curriculum vitae, a publication list, and a statement of research and teaching goals and interest (not exceeding 3 pages). It should also include reprints of the five most significant publications, and names and contact information of five references.

Further information is available on the Faculty website: <http://www.unil.ch/gse>.

For any specific enquiries, please contact:  
 Prof. Jean Ruegg ([doyen.gse@unil.ch](mailto:doyen.gse@unil.ch)), Dean of the Faculty

The application shall be submitted by e-mail to:  
[doyen.gse@unil.ch](mailto:doyen.gse@unil.ch)

The application shall be submitted by regular postal service to:  
 Faculty of Geosciences and Environment, University of Lausanne, to the attention of the Dean, Bâtiment Amphipôle, CH-1015 Lausanne, Switzerland.
